

THANK YOU EXHIBITORS AND SPONSORS!

The BNA is funded almost entirely through membership fees alone. At only £20 for an annual student subscription, it is indeed a tall order to balance the books each year. In addition to the tremendous good-will of the Committee members, the BNA is indebted to the following companies that regularly support our National Meeting and other activities or the BNA Newsletter by inserting their promotional literature. Please remember that the vitally important contribution they make by exhibiting at our events allows us to offer registration fees at a fraction of the real cost. Moreover, we also get the chance to see the latest books, equipment and technology!

The following companies donate generously to the 'Corporate Sponsorship Scheme':
Merck, Pfizer, GSK, AstraZeneca, Lilly
